About Us:

The A.R.K. Association to Rescue Kritters is a State and Federally permitted wildlife rehabilitation facility that admits sick, injured, and orphaned wildlife, providing food and medical care until they are able to be released back into their natural habitat. In 2024 alone, A.R.K. admitted almost 1500 animals!

Additionally, A.R.K.'s mission is education, and it is our privilege to bring our ambassador animals into classrooms and other venues to help educate the public about our native wildlife.
